Conciliation Of Boards Seen

Not Notified of
Hearing, Manager

Town Manager Edward C. Monahan said that he had not been "notified through usual channels" of a hearing on legislation which would saddle the \$6,000,000 fixed costs of the MTA on the 14 cities and towns.

The hearing, was conducted by the Committee on Metropolitan Affairs at 10 a.m. on Monday.

Called By Phone
"The first I heard of it was when City Manager Shattuck of Medford called me at 10:20 a.m. from the State House," Monahan said.

"It seems a pretty casual way to treat a six million dollar problem," he said.

Monahan chairmanned a sub-committee of the MTA Advisory Committee which opposed the legislation proposed by Gov. Hexter.

OFFICIALS have taken steps for "control" of debris caused by leaving metropolitan areas papers at the corner of Mystic st. and Falmouth rd. as a drop off point.

The new plan would satisfy both positions, it is felt.

The playground would cost \$14,000 with the greatest expense due to leveling the area and building a retaining wall.

Besides games, the area could be flooded in winter time for skating, also as a parking area when not under school use.

The School Board and Selectmen have been differing as to use of the area.

The Selectmen proposed to extend Appleton place through to Quincy st. while the School Board contended this would spoil the best part of a playground which it desired.

The Selectmen contend there exists serious traffic and fire hazard in the area due to parking during masses and services at St. James church.

The new plan would satisfy both positions, it is felt.

Town Starts
Rte. 3 Study

The Town Engineering dept. as well as an outside firm of consultants are combining in an effort to come up with an alternate plan for Route 3. Town Manager Monahan announced this week.

Approval of the work was given by the Selectmen after a conference Monday night. The outside firm, retained for a fee of \$1800, is Campbell Associates Consultants.

"Champing At Bit"
The contract calls for three services: preliminary layouts, final plans and final presentation before whatever hearings, meetings and the like are necessary.

Monahan said that local serenity as to the State's proposal to split the Town with a speedway via the Morningside section is "understandable since people are not sure of the exact location."

"It is my opinion they are just waiting, champing at the bit, ready for a call to arms," Monahan said.

As yet, no reply as to the proposed location of the road has been received from Commissioner Volpe's office. Full information and plans were promised several weeks ago, according to the Manager.

Local Players Star
For New Prep

Three former Arlington High hockey players, Paul Prindle, Hank Einarson and Bill Burke, now playing for the New Preparatory School in Cambridge, have had a successful season so far this year.

In 14 games, New Prep has 11 wins, two ties and one loss. The only defeat was suffered at the hands of Northwood Preparatory school of Lake Placid, N. Y. This game was played at the Olympic Arena, N.Y. on Saturday, Jan. 23.

During this game, defenseman Prindle scored two goals within six minutes in the first period.

Slips Into Water
As Maguire reached the boy, he slipped off the ice into the water, but by this time Medford fireman James A. Fitzgerald had maneuvered the ladder into position and between them they were able to pull the boy ashore.

The spot where the boy got in trouble was behind the Medford fire station.

FLAGS of all nations form a background for the head table at the annual Girl Scout Dinner. Pictured here are Pierre Trouvat, guest speaker; Mrs. Roy Spencer, president of Girl Scout Council and Rev. John Nicol Mark of the First Parish Unitarian Church.

Scout Group Hears French
Research Fellow In Talk

"Youth is no longer a crime in Western Europe," Pierre Trouvat, young French lawyer, told his audience at the annual Girl Scout meeting and dinner in the Unitarian Parlor on Monday evening.

"Unlike America where high value was always placed on youth in industry, in government, and in the sciences, in Europe a man has to be old before he was recognized. Youth was considered a weakness and brilliant men waited out their late twenties because they and their ideas could not be taken seriously."

World traveler himself, Trouvat said that everywhere youth looks upon the United States as a veritable paradise. He urged his hearers to help young Americans to realize that young people all over the world are really just like themselves with the same hopes and longings and feelings.

The speaker, a research fellow in international law, spending this year at Harvard, made a deep impression on his audience. He complimented the Girl Scouts on the ideals expressed in the brief international ceremony by Troop 5, under the direction of Miss Mary E. Leveroni.

Guests included Mrs. John K. Berry, president of the Arlington Woman's Club and Mrs. (Continued On Page 7)

Mothers' March On Polio
To Climax Local Drive

Six hundred Arlington mothers will stage their famous "Mother's March on Polio" between 7 and 8 o'clock this evening in an attempt to put the Polio drive over the top.

Notice that the March is under way will be heralded by the ringing of church bells, fire sirens and the loud speakers of the police cars. Those wishing to donate are urged to turn on their front porch light and a volunteer will pick up their contribution. Chairman Robert E. Mahoney announced.

Co-chairman of the Mother's March are Mrs. Spencer Dormitzer of 38 Cliff st. and Mrs. Raymond McKeever of 49 Harlow st.

Mrs. Dormitzer pointed out how research has brought the solution of polio much closer and that soon a vaccine, now developed might prove to be the weapon to wipe out this dreaded scourge.

Mrs. McKeever praised the cooperation shown the committee by Police Chief Archie F. Bullock, his department and the Auxiliary Police headed by Sgt. Philip Sweeney.

A shortwave car-radio network manned by members of Arlington's Civil Defense and headed by Al Davison has been set up to patrol the streets and radio for workers in any area not covered.

Parent-teacher organizations throughout the Town are providing the majority of March solicitors.

In Precincts 1 and 7 there will be no contests for the long term.

For the major offices battle lines are drawn. Three are running for two, 3-yr. positions on the Board of Selectmen. They are incumbent Joseph P. (Continued on Page 7)

Two Gunmen Strike
In Heights Blackout

A temporary blackout in the Heights last Monday night enabled two gunmen to hold up a lone gas station attendant and rob him of \$62 as darkness shielded their actions.

A power failure plunged the Massachusetts avenue service station of Herbert G. Hight, 60, of Medford, into darkness late in the evening. Soon after the lights went out, the gunmen entered the station, which is on the avenue, near Lowell st.

Hight was alone when the pair came into the building. Both were hatless and each carried a revolver. They first went through Hight's clothing and then forced him into a rest room while they rifled the cash register.

TEST ALARM
To announce the beginning of the Mothers' March on Polio tonight, a test air raid alarm will be sounded at 7 p.m., according to Dan McFadden, Civil Defense Director.

Residents who wish to contribute are invited to turn on porch lights.

OK Lights at "Res"

A \$15,000 layout for an expanded and improved Warren A. Peirce field met with the approval of the Board of Selectmen Monday. Funds will be sought from the Town Meeting.

The present area will be expanded easterly due to the gift of land owned by the David Buttrick Co. and the Frost Insecticide Co.

Multi-Use Area
It will include a new varsity baseball field, a practice football field, and a multi-use blacktop area for combined sports such as tennis, outdoor basketball and volleyball. In the winter the bare surface can be flooded for skating and hockey.

The \$15,000 will cover the physical layout, seeding and surfacing, according to Park department officials. However, it is understood more money will be needed to culvert Mill brook before final completion of the program.

The added amount may reach \$10,000, it is said.

Boards Meet
At the request of Town Manager Monahan the Park Commissioners met with the Selectmen Monday night.

The Selectmen also OK'd in the budget funds for lighting Reservoir field for Little League games and softball.

It is understood the Little League may be expanded from two to three divisions.

By lighting, Park officials said that the field could be used until twilight by youngsters after which softball could be played by older groups.

Originally Opposed
It is reported that the Selectmen opposed the lighting originally on the grounds that the "Res" field was not centrally located.

However, the dual plan of both fields, the Peirce field behind the A.H.S. and the "Res" at the Heights, was the deciding factor, it is understood.

JURY POOL
Drawn by Selectmen for duty at the Grand Jury criminal session in February is David C. Savoian, 141 Robbins rd.

For the Middlesex Court in Cambridge on March 1 are Joseph P. Meadows, 5 Brattle st.; John F. Stiff, 53 Mt. Vernon st.; Paul Pratt Jr., 46 Eustis st.

Antique Bookmarks Now On Display At Robbins Library

Another attractive exhibit has been loaned to the Robbins Library by Mr. Edwin F. Tarbox of 231 Appleton st. She has arranged a display of interesting bookmarks for the showcase in the reference room of the library.

The oldest bookmarks in the exhibit date back to the latter part of the last century. These for the most part feature mottoes that are hand worked with yarns and other threads.

There are two rare bookmarks of silk ribbon that are stamped with the designs of Kate Greenaway, the 19th century English illustrator of children's books.

A number of markers in the exhibit are decorated with religious subjects. Some of the great presidential elections are recorded on a few markers. Presidents Cleveland and Theodore Roosevelt took advantage of this form of souvenir for their political campaigns. Handsome richly colored ribbons bear the image of Queen Elizabeth commemorating both her marriage and coronation.

The library is open from 9 a.m. to 9 p.m. Monday thru Friday and 9 a.m. to 6 p.m. on Saturdays.

Casting Tournament Enters Third Round At Boys' Club Gym

The second round of the Arlington Boys' Club second Annual Bait Casting Tournament was held at the Boys' Club gym on Saturday, Jan. 23 with members of the Spy Pond Rod and Reel Association serving as instructors and judges.

The lead changed hands as Danny Mulvihill, the winner last year, came up with 1100

points which added to the 100 points scored in the first round gives him a total of 1200 points. In second place with 600 points is Roland Flynn, Eddie O'Brien and Albert Beaudoin are tied for third with 500 each and Jim LeBlanc is fourth with 200.

It is expected that some of the boys that have not as yet scored will get into the act shortly and give the present leaders a real battle.

The third round of the Tournament will be held on Saturday, Jan. 30, at 1 p.m.

Continued From Last Week

THE RUSSELL SCHOOL was built in 1872 and is located directly behind the main business section of the town. As in other school buildings constructed before 1900, one finds high ceilings, large classrooms, large passageways, wood interior, dark worn floors saturated with oil, wood stairways, an excess amount of blackboard and little or no tackboard.

The furniture is of the fixed type. The heating system is old and lacks automatic controls, while ventilation is entirely by gravity.

The building has no library, assembly hall, or other special rooms. Two small areas in the basement are used for play activities during inclement weather. The only egress from these areas is by one stairway adjacent to the boiler room. Toilet facilities are located in an attached building constructed some years ago when outside toilets were eliminated and are reached by a narrow passageway from the basement.

While there are classrooms on three floors, only those on the first two floors are now in use.

The Russell School rates lowest of all schools in Arlington, getting only 126 points. The survey recommends that the school be abandoned. Nowhere on the chart does the school climb above the "very poor" mark.

THE JUNIOR HIGH SCHOOL EAST was built in 1928 and is a two-story brick building. The site, while in a desirable residential area, is not large enough to accommodate a complete junior high school athletic program.

The building contains a gymnasium and auditorium and library which is now being used for two classrooms. The cafeteria is small and noisy. Corridors are dark and light throughout the building is below standard. Areas for guidance, teachers, health, and administration are limited and not attractive. The heating system is not done so as to permit individual heating of separate units.

Junior High East rates well above the average with only the "very poor" site bringing the score down some.

THE JUNIOR HIGH SCHOOL WEST was erected in 1921 with additions in 1930 and 1950. Since the building was constructed in three phases, many of the facilities are not properly located, especially the administrative offices and health suite. The site is one side of a hill and does not contain sufficient level areas for recreation. The only parking space is on the boys' play area while the girls' play area has not as yet been landscaped.

The cafeteria which is located in the original gymnasium is small and noisy. There are no offices available for an assistant principal, guidance teacher, or other special teachers other than the physical education teachers in the recent addition.

The gymnasium-auditorium and shops which are located in the new addition are of modern design. Automatic doors divide the gymnasium into two sections, for girls and boys. Shower and locker facilities are located directly under the gymnasium.

The Home Economics rooms are small and unattractive. The space designated for a library contains fixed desks, limited work space and does not meet the standards of a modern school library. The classrooms in the main section have fixed desks, blackboards which cause glare, and considerable brightness contrast.

Junior High West also rates well above the average with the site being the only poor feature.

ARLINGTON HIGH SCHOOL General Statement

The complete, efficient high school plant equipped to fulfill the present-day demands for diversified education and training is necessarily a complex structure. In addition to the classrooms for general instruction, there must be provided other facilities such as the library, auditorium, gymnasium with appropriate dressing rooms and showers, cafeteria, vocational shops, home economics rooms, science laboratories, music rooms, health suite for nurse, doctor, and children who become ill, guidance suite, administrative offices, teachers rooms and storage areas. These facilities must meet modern standards for lighting—both natural and artificial, sanitation, ventilation and safety, and present an attractive appearance conducive to community pride and pupil desire for achievement.

The original secondary school, erected in 1912, was a complete unit according to standards of that time and the additions constructed in 1930 to meet increased needs had to be adapted to the original structure. The completed whole is, therefore, even more complex and lacks the coordination and efficiency which could be achieved in a single architectural plan.

In order to arrive at an evaluation of this building, let us consider its facilities in the light of their functions in the secondary program.

Auditorium

An auditorium serves as a center for school assemblies, dramatics, musical concerts, and other school functions. Its use may also be considered desirable by the community if other spaces for large group gatherings are not available. From the standpoint of the school alone, an auditorium seating 800 with an adequate stage, fixed seating, and sloping floor has much greater functional value than an auditorium designed to accommodate 1500.

Neither the older auditorium in the main section, nor the Lowe Auditorium meet these standards. The original auditorium is too small, lacks an adequate stage, has a level floor, is without dressing rooms, and has no place to store the scenery. The Lowe Auditorium has a flat floor and movable seats, the stage is not equipped, and since it has never been completed, it cannot be heated properly during cold weather.

Missing Teen-Agers Found in New York

Two local teen-age girls, who had been reported as missing from their homes early last week, were located by New York police in that city the following Thursday.

Both girls were 15-year-old students who had left for school on Monday morning and had not returned home by late that evening. When notified by the parents, Arlington police sent out teletype messages to various police headquarters.

It was because of these messages that New York police came to find the girls staying in a hotel near Times Square under assumed names.

The pair were returned home into the custody of their parents by late Thursday evening.

THE PUBLIC has been doing an excellent sanding job (just where is not known) according to Town Manager Monahan. All the boxes set up for roadway emergency are empty, he said.

ONE WAY traffic on the easterly side of Washington street from Summer st. to Overlook rd. has been established on "a trial basis."

ELECTION officials appointed by Selectmen are Jeanne E. Walton, inspector in Prec. 5. She succeeds Bernice Miranda who resigned. In Prec. 6 Harold A. Yeames of 41 Brantwood rd. was named.

TWO HIGH Town officials are at Symmes hospital. They are George Greim, supervisor of maintenance in the schools, and Herbert J. Leary, inspector of buildings. Both are progressing well, reports say.

"CAN WE AFFORD LESS THAN THE BEST?"

Arlington Advocate To the Editor:

The Harvard School Building Survey has set us brooding. Being brooded, a few uncomfortable thoughts keep pecking when our brood lets us think. Perhaps you and your readers would like to do a little brooding, too.

Brood #1: The process of education reduces ultimately to the face-to-face contact between teacher and student. In this process the physical surroundings, that is, the school facilities, are important. But most important are the quality and training of the teacher. Without a good teaching staff, the best school building is only a deceptive shell.

Brood #2: Here in Arlington during the past few years a great deal of attention has been given to the school facilities, culminating in the Harvard School Building Survey. But what has been done to evaluate whether our teacher standards and salaries attract the best teachers each year?

Brood #3: What is the best we can afford? Can we afford less than the best?

With all this brooding, perhaps something not too indigestible can be hatched. How about a survey to establish the facts of this matter?

Respectfully yours,
 Sylvia and Ascher Shapiro

Friends Witness Gripping Play

The Masquers of Roxbury presented a one act play "Lawd Does Yo' Understand" at the Friends of the Drama meeting Jan. 24 with gripping success.

The play is an episode from the life of a negro family in the deep south.

"Aunt Dodie" poisons her grandson, unjustly accused of the murder of a white man, to save him from lynching, just as his innocence is discovered.

As the curtain is slowly drawn on the pathetic scene, a beautiful tenor voice, in the distance is heard singing "Were you there when they crucified my Lord." Stunning silence paid its tribute, followed by enthusiastic applause.

Samuel Wood, tenor soloist at the Pleasant Street Congregational church was the voice. The play was directed by Elizabeth Rifechin, a member of the club.

Eleanor Hughes, drama critic for the Boston Herald, was present and spoke of the Little Theatre movement and its success. Milton C. Paige Jr., president, conducted the business meeting.

A committee of juniors, headed by Stella Carter, served refreshments. Her assistants were Betty Carter, Marilyn Bard, Natalie Roghaar, Mary Matos, Sally Weston and Virginia Olson. Pourers were Barbara Burns and Dorothy Pigott.

Resignation Causes Special Election

The resignation of Charles J. Barbaggio, town meeting member and chairman of Precinct 12, was received yesterday by Town Clerk Golden. Barbaggio explained he was moving from town.

Golden said the resignation was effective immediately and that, since it was not received until after the filing deadline last Monday, there was no way to have the vacancy filled in this year's annual election on March 1.

A special meeting must be held after March 1st by Prec. 12 members to elect a member to fill the vacancy, Golden declared.

FIRST BAPTIST CHURCH ANNUAL MEETING

The annual meetings of the First Baptist Church and Society were held Tuesday evening, Jan. 26.

Following a delicious dinner served by the social committee of the church, Mrs. Harry Thompson, chairman, the business meeting was called to order.

Reports of the Church and Society were approved. These all showed evidence of successful achievement during the year 1953. The treasurer reported all bills paid with no deficit. A budget of \$43,692.00 for the year 1954 was recommended by the Standing Committee and was adopted without question.

Officers and committees of the Church and Society were elected.

At the close of the business meeting, Mrs. Miriam Arkwell Cook delighted the audience with several beautiful solos.

Mr. Donald Marshall accompanied Rev. Walter Lee Bailey, pastor of the First Baptist Church, Winchester, was the speaker of the evening, and gave a strong inspirational address, and the evening closed with the singing of the Doxology as an expression of gratitude for a year of fine fellowship and Christian work.

BILLY SQUIRES, Arlington High track star, class of '52, now attending Notre Dame University, will be sent on from South Bend, Indiana, to run in the annual B.A.A. meet at the Boston Garden Saturday night.

Korean Chaplain Addresses K of C

Father John Kinchla, twice wounded chaplain of the Korean War, addressed the Arlington Knights of Columbus, Council 109, membership at a recent meeting in Chestnut Hall.

Chaplain Kinchla ascribed to each letter of the word "Champion" these attributes: charity, humility, appreciation, mercy, prayer, intelligence, obedience, need of teamwork, and then went on to illustrate from his own experiences during the Korean War how the American soldiers possessed all these attributes, and why he should be called a "Champion."

Marked by Uniform
 "The American soldier loses prestige during the time of peace because of the actions of a few," Father Kinchla told the Arlington K. of C. "The actions of these few which give the rest a bad name, stand out particularly because they are wearing a uniform which mark them apart from the common layman." He went on to urge the membership to remember the sacrifices these members of the Armed Forces have made, and to always keep in their hearts and minds a high regard for the men and women who were serving our country.

Japanese Aid
 Father Kinchla recounted the horrible problem the American Forces faced with the disease, hemorrhagic fever, which in the early days of the Korean Police Action, took many American lives, and how it was our former enemy of World War II, the Japanese, who recognized the cause of this disease, gave us the solution to overcome it.

On behalf of the members, Grand Knight William Casey thanked Father Kinchla for the inspiring talk. The members gave the twice wounded, former chaplain a standing ovation for many minutes.

IT CAN HAPPEN HERE
(or Let's Slumber Some More)

On Monday the main head of a Boston newspaper blared "Hyne's Defeat On Artery Seen." The paper also charged that the decision of the State Commissioner and his associate commissioners to continue to plan along the route they decided upon last October and November was reached on the day before the City of Boston presented the State department with its alternate proposal.

Even though the next day brought the information that the City of Boston's plan was a possibility, with "modifications," the whole business applies to us. We vision the first heading in the near future with just one word changed — "Arlington" for "Hyne's."

Yes, it could happen here as applied to the State's proposal that Route 3 pass through the Morningside section, wiping out extremely valuable property plus dissecting the community. Incidentally, Hyne's engineers claim their route would cost \$51,000,000 less.

Yes, it could happen that we spend several thousand dollars preparing our own plan, waste hours trying to get it heard, only to be told by the State boys "We've already made up our minds. Sorry."

Right now we would like to hear more voices of alarm. We've only heard from the Selectmen, Manager and School Committee.

One reason for the relative calm undoubtedly is caused by the lack of knowledge of the exact location of the proposed roadway.

Although Volpe promised local officials a detailed plan, none has appeared. After a reasonable wait, the Manager last week made a second request. As of Tuesday this week — not a peep out of the State.

Forgive us if we look at excuses which might be granted the State with jaundiced eye. We strongly suspect that the delay in detailed plans is not that they are not drawn yet. They are off the drawing boards all right, else how could estimates of costs be given at the "preliminary" hearing?

Further, the "preliminary" hearing was not the opening scene of the drama. The play is well into the second act, maybe the finale has been reached. Our Town representatives had the strong impression that the first act was seen at a private showing for Winchester Selectmen — Winchester, the town through which Route 3 was to go originally, now the home of Volpe and other party big-wigs.

Read the headline again. It may well say soon "Arlington's Defeat On (Route 3) Artery Seen."

EDUCATION LOCAL RESPONSIBILITY

A worried parent recently wrote Mrs. Oveta Culp Hobby, Secretary of Health, Education and Welfare, expressing deep concern over community apathy toward local school problems, especially those of a budgetary nature. In an election involving desperately needed school taxes, the writer observed that, "There were 72 votes cast in our box — in contrast to the several thousand votes cast in the last presidential election. And ours is a neighborhood of young marrieds." Mrs. Hobby, a federal officer, was then asked to do something about the situation.

The answer to a plea of this kind should be painfully clear. Local initiative, local responsibility and local pride are things that cannot be established by fiat nor bought with federal money. Turning to the federal government to solve local problems is a deadly process for people who value freedom. It is suicidal in the case of education.

As Mrs. Hobby warns, "Our public schools belong in our local communities, they must stay there... the Federal Government must not interfere in educational matters which rightly belong to the local and State authorities."

ANOTHER LONG STEP—

Despite the mighty blows of the Administration's fiscal axemen, it appears the most dulcet of all the campaign promises, a balanced budget, is still a will-o-the-wisp.

But the Ikemen are getting close, so close in fact that Virginia's tireless Senator Harry Flood Byrd, long distinguished as the Democrat who believes in economy, thinks that balance may still be accomplished within the fiscal year that begins next July 1st.

The figures are encouraging, even dramatic. President Eisenhower has called upon Congress for expenditures of \$65,570,000,000 compared with \$70,902,000,000 for the present year. By way of further comparison, the new budget calls for a reduction of more than 12 billion below the spending figure estimated by former President Truman for the current fiscal year.

But even if the Government's income for next year is \$62,642,000,000 as the President hopes, there will still be a deficit of \$2,928,000,000, and he has accordingly repeated his request to Congress to be freed from the "straitjacket" of the present 275 billion legal debt limit.

Taxwise, the budget message was something of an Administration tight-rope act. The message noted that the 10 percent cut in personal income taxes on January 1st, plus the expiration of the excess profits tax will cost the Government five billion in income, and that no more than 1.3 billion in additional tax cuts can safely be made next year. The new budget figures are also dependent on action by Congress to retain the present 52 percent income tax on corporations that is otherwise due for a five percent drop on April first, and to maintain existing excise taxes on liquor, tobacco, automobiles and gasoline which are scheduled to drop on the same date.

The biggest slice of the \$5,300,000,000 drop in the new budget over the current spending figures is the recommended reduction of \$3,800,000,000 in national security expenditures. Despite this cut, the President assures us we shall have more defense, not less. More will be spent on the Air Force and on atomic weapons, but the Army, in line with the new mobility policy, will be cut back from a million and a half men to one million, approximately.

That Man About Town

By MAT

The annual election of 1954 had its second withdrawal in as many weeks. This week John O'Brien decided not to file for Assessor. Last week Herbert O. Alderson withdrew from the Selectmen's race for personal reasons.

While O'Brien gave no reasons for not filing, dopesters figure that O'Brien withdrew in order not to interfere with Dan Purcell. With both in, a bad split would have occurred.

A two-way split in votes for Assessor still remains, however—Purcell and Manning, Magnus and Wood.

The hottest political news of the week is in the School Committee race. Three new candidates appeared over the horizon during the last week. They are Willard J. Slagle and Leonard F. Tibbets, local pharmacist, and William J. O'Brien Jr., brother of the above-mentioned John. Ten are now fighting for three spots.

The entry of O'Brien was a distinct surprise. No doubt two campaigns going on in the same house would have burst the eaves.

Observers feel that William S. Patterson who trailed Harris and Rawson for Selectman last year will run a stronger race this year.

They point out (with some logic) that last year a lot of worker effort was split between the Alderson and Patterson campaigns. This year Patterson will receive the benefit of a combined effort.

In the meantime Greeley and Rawson are not loafing. Rawson started early and hard, back last fall. Greeley has the advantage of being up "for reelection"—an important factor.

As we see it all three races—selectman, assessor, school—will be brutes.

WHEN YOU SPEND \$10.00—

Those people who still think that business keeps, as profit, a large part of the money it takes in from its customers should be interested in a report by the American Economic Foundation showing what happens to the dollars we spend at retail.

Suppose you go into a store and buy \$10.00 worth of goods. On the average, here's where the money goes:

Cost of the merchandise, with transportation, rent and other overhead expenses comes to \$8.02. Wages and salaries account for \$1.31. Taxes total 38 cents, and depreciation of physical equipment such as buildings and fixtures requires 7 cents. This leaves a mere 22 cents out of that \$10.00 of yours — and that is the storekeeper's profit. Not all of this remains in the pockets of the owners. In typical large stores, for example, in a recent period, only 14 cents of it was paid out in dividends, the remaining 8 cents being reinvested in the business, to enable it to meet the competition and keep up with the march of progress.

One sure deduction can be made from these figures. If store owners earned no profit at all, you, the consumer, would hardly notice the difference in the prices you pay for goods.

75 Years Ago This Week

When we went to press last week hundreds of men were at work on Spy Pond gathering the ice crop, straining every nerve to house all they could before the January thaw, which set in on Friday, should put a stop to their work. They continued until 4 p.m. last Saturday, when the ice had become so softened it was useless to store any more.

Tuesday evening was spent very pleasantly by the Universalist Society in witnessing two little dramas which were enacted in the vestry of the church.

G. W. Storer, Arthur Pierce, the Misses Swan, Locke, Waldo, Day and Spaulding and Mrs. Clapp took active parts in the productions.

IN 1904

50 Years Ago This Week

Someone who has been keeping "tabs" on the weather has made the statement that we have had 36 consecutive days of good sleighing.

This week the Arlington Ice Co. has been harvesting its second crop of ice. The first crop averaged 10 to 12 inches. The Cambridge Ice Company filed its houses on the shores of Spy Pond with the first crop of excellent quality ice.

IN 1929

25 Years Ago This Week

The Boston Elevated Railway Co. was again under fire this week from several local sources for the exceptionally poor service it has been giving Arlington.

In an editorial the Advocate said, "Never has the E.R. service been satisfactory to all and probably it never will be, but at the present time it is most unsatisfactory to most of those who are obliged to use it."

Children have been enjoying the coasting and skiing at the Arlington County Club during the past week.

No ice has been cut on Spy Pond so far this winter. The Arlington-Belmont Ice Company, whose houses are on the shore of the pond, has flooded the ice surface on every possible occasion, but the depth of the ice has never been sufficient to warrant cutting.

IN 1944

Nearly 500 women attended the American Home Day meeting held last Thursday at the Arlington Woman's Club according to the president, Mrs. Stanley R. Kingman.

There were 70 fewer cases of juvenile delinquency in Arlington in 1943 than in 1942, Police Chief Bullock told the audience that gathered last Sunday afternoon in the Middlesex Sportsman's Assn. clubhouse for the formal opening of the Arlington Boys' Club new home.

IN 1953

One Year Ago This Week

The annual election of 1953 promises to be one of the most interesting in several decades if quantity of candidates has a bearing. Twenty-seven candidates will vie for eleven positions in this year's election.

At the executive meeting of the Arlington Council of Parent-Teacher Assns. last week it was voted to suspend the Fine Arts Program for the 1953-1954 season.

The Rev. Albert R. Freeman has been called to the Heights Baptist church to succeed the Rev. Charles M. Massey, who is now in the military service. Rev. Freeman will begin his pastorate on Sunday, Feb. 8.

LIONS CLUB

The Arlington Lions Club held its first meeting of 1954 at the Fresh Pond Grille last Monday.

An interesting movie made by the New England Telephone Company was shown by Rowland Duffon. It served to enlighten those present as to the abuses heaped on the telephone company by its subscribers.

Zone chairman, Ralph Sanguinette, was among those present at the meeting.

George Chappin was admitted as a new member, the first in 1954, and was installed by Past King Lion Dr. John Robertson.

A rummage sale is contemplated for the very near future with any donations of articles for the sale being greatly appreciated.

Behind the Business Scene

— by Reynolds Knight —

One of the most important factors in such an economic readjustment as the one we are experiencing is the change in inventory levels. For the first time in a year inventories, seasonally adjusted, declined last October, and by some \$400 million. Later figures are not available, but the softness of prices in December and January indicate that the decline is not yet over.

When business is booming, inventories build up, and some persons are employed in making goods which do not pass immediately to consumers. When business slackens, employment and production fall faster than consumption.

For this reason, a downward inventory curve, several months long, is one of the sometimes painful symptoms that must come and pass before a downturn can reverse itself. The inventory dip we are in now appears to be a fairly steep one. The steeper the descent, the sooner the bottom is reached, in most such cases. Remember 1920-21?

If this reasoning is sound, we are fast approaching the end of the lull. This year is unlikely to challenge 1953's place as the most prosperous in history for most Americans. But just about the time the wails about how badly things are going are loudest, we shall find ourselves on the upgrade again.

TIME TO SELL AGAIN — Who holds the key to continuing industrial prosperity in this country? One prominent Eastern executive nominates the salesman. Maintaining the nation's high living standards rests on mass selling as much as on mass production. J. A. Gollin, vice president of Schenley Distributors, Inc., told a group of top sales executives in Milwaukee recently. He said:

THINGS TO COME — Grownups get a break — a card table that hangs on the back of the automobile's front seat in the manner of the baby-carrier... A neon sign lights up on a new six-way fuse to tell the householder which one has blown. A new shoe repair machine makes its own nails from wire as it works... New York's Motor Boat Show displays a boat bailer run off the engine shaft... Adjustable casters promise to keep furniture from warping on uneven floors.

REACHING FOR THE MOON — Last year American aviation set an unofficial speed record of 1600 miles per hour and an unofficial altitude record of 83,235 feet. A jet engine of 10,000 pounds thrust went into production, as did several types of guided missiles.

Tremendous progress in the industry's fifty years, but progress is far from finished. Minneapolis-Honeywell, home-heating controls pioneer which turned to aviation controls in World War II, has developed an intricate electronic brain for planes. Using a punched tape to monitor the plane's complicated control equipment, this device makes fully automatic flight feasible.

The same principle could be used to control the maze of instruments in a space ship on a 15,000-mile-an-hour flight to the moon. This company is now working on a new kind of control system to make possible automatically controlled landings on carriers—even compensating for pitch and roll of the flight deck.

COFFEE HEADACHE — Coffee importers and roasters are back in the middle as the rise in the price of raw coffee seems to have reached a peak. Big roasters' policy is to base retail prices on the cost of stocks, not of replacements. Hence, when the price of raw coffee went from 54 cents to 74 cents on bad growing weather in Brazil, roasted coffee followed the rise at a respectful distance.

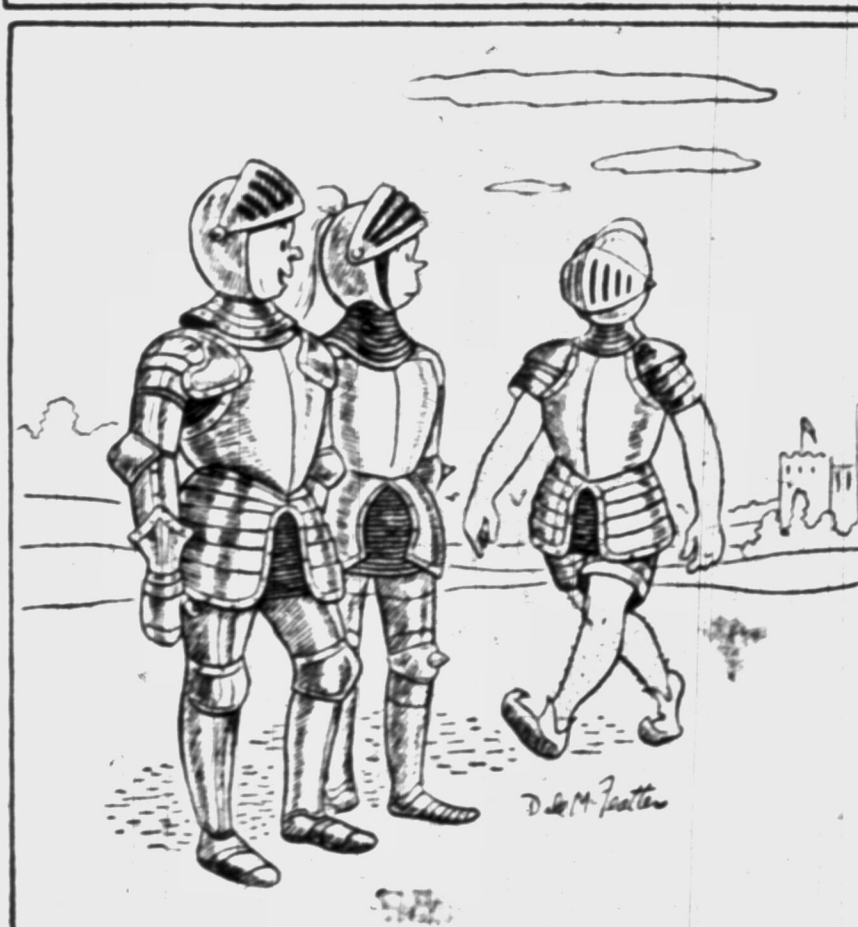

Now, even with the green beans falling off in price around five or six cents a pound, increases in retail prices must still be expected. Markups at retail, and restaurants' talking of 15-cent cups of coffee, have alerted the consumer. What he will see is raw coffee going down and coffee in the cup still going up.

Radio commentators, columnists and congressmen tell the drinker he gets the worst of it.

BITS O' BUSINESS — Onions cost one-third their price a year ago... Contracts for defense procurement have been cut back \$500 million for the second half of 1954... Used car dealers estimate their prices dropped 42 per cent in 1953... Steel output in the week just ended held even with the January 11 week, at 1,772,000 tons... New York store sales, which were reduced in December by unseasonably warm and dry weather, suffered in the January 16 week from a cold wave and 12 inches of snow.

Bloodmobile Visits
Town Hall on Feb 5

The next bloodmobile visit will be Friday, Feb. 5, at the Town Hall, from 1 to 7 p.m. Blood is more urgently needed than ever, because of the increased knowledge of its use and value over the past five years. In 1948 only between 2 and 3 pints of blood were needed per hospital bed per year. Last year between 10 and 20 pints were needed per hospital bed per year. Operations never tried before are routine now. Lifesaving operations, aided substantially by the blood that must be available for doctors to operate . . . to help them save lives.

This is an age of synthetics . . . nylon, plastic, etc., but there is no substitute for human blood. It is from blood only that gamma globulin is secured. To quote the current Good Housekeeping Magazine (Feb., 1954) in "Keep Up With Medicine": "Three Boston Physicians have reported that gamma globulin, used to help in preventing polio and virus infection of prospective mothers . . . will also help prevent the spread through family groups of epidemic hepatitis (. . . infectious jaundice or inflammation of the liver)."

Cases in 81 Boston families were studied. Where gamma globulin was given to other members of the family immediately after the discovery of a case of epidemic hepatitis, further cases did not occur in the children of the family and only one case occurred in an adult. 48 per cent of the members of families to which gamma globulin was not given did develop epidemic hepatitis; 35 per cent of the children exposed were affected.

The supply of gamma globulin and blood plasma for operations must be kept up. For appointment to give on Feb. 5, call Mrs. Russell T. Hamlet, chairman, AF 5-4129.

Whole Community Stands Liable
For Juvenile Acts, Says JudgeRecorded Concerts
For Children At
Junior Library Hall

Because of the interest on the part of parents in Children's Recorded Music Progress, the Robbins Library is presenting one or two children's programs this season. If these programs prove popular and worthwhile, it may be possible for the library to plan a series of monthly programs beginning in the fall.

The first experimental Children's Concert will be held at the Robbins Library in the Junior Library Hall on Saturday morning, Jan. 30, at 10 a.m. and will last about 45 minutes. The program will consist of a short resume of the life and music of Haydn, and then after a brief commentary Haydn's "Surprise" Symphony will be played on record.

The second preliminary program will be on Chopin and will be held on Feb. 20, Saturday, at 10 a.m. in the Junior Library Hall of the Robbins Library.

Mrs. Rita Z. Jackson, music librarian, will be the commentator for both programs.

The public is cordially invited.

DUPLICATE CONTRACT

Duplicate contract at the home of Mrs. J. Herbert Mead, Jan. 25, results: north and south top score; Mrs. Harold E. Ring and Mrs. John J. Cox; second, Mrs. Walter E. Lannefeld and Mrs. Mildred McGee; third, Mrs. Walter G. Black and Mrs. Walter Finlay.

East and west top score; Mrs. Ralph Benson and Mrs. Clifford R. Hall; second, Mrs. Andrew C. Shiver and Mrs. Peter S. Baker; third, Mrs. Joseph P. McCann and Mrs. Clyde Hayne.

If juvenile delinquency becomes a serious problem in this town, it is the responsibility of the total community, and can not properly be blamed on any one individual or group. Parents, church, school, and social agencies must coordinate their resources to combat it.

These ideas were emphasized by Judge Jennie Loitman Barron, Boston Municipal Court, when she addressed a public meeting of the Arlington League of Women Voters at the Junior High East Wednesday evening, Jan. 20.

The distinguished judge spoke forcefully and positively from her years on the bench acting on the cases of both adults and young people who have committed crimes against society or themselves. The basic need of all children to know they are cared for is inescapable.

Judge Barron said the 3 A's of preventing delinquency are "acceptance, attention, and affection." Strong discipline to develop a child's sense of responsibility can do him no harm as long as he feels secure within his own family. She also emphasized that no citizen can be called a "good citizen" who neglects to vote and who never takes an active interest in the town's affairs. Young people consciously or otherwise pattern themselves after their elders, and "smart deals" or indifference to local problems are inevitably reflected in the next generation.

Mrs. Chester Protheroe, 14 Mayflower rd., was chairman of arrangements for this League meeting which was attended by several hundred persons.

50th Anniversary
Observed by Visiting
Nursing Association

Some 150 members and guests of the Arlington Visiting Nursing Association celebrated the organization's 50 years at a golden anniversary luncheon on January 19.

Three Selectmen and other town officials took part in the observance at the Universalist church.

The retiring president, Mrs. Hallam T. Ring, gave a resume of the history of visiting nursing in Arlington.

The Rev. John Fitzsimmons was the guest speaker. Selectman Walter T. Kenney read a resolution recognizing the organization's service to the town.
